

## **Royal Ranger Training for Leaders**

Greetings from the Northland!

Minnesota District Royal Rangers is proud to announce the unveiling of the new and improved Training format. The National Royal Rangers Office have developed a chart showing the various levels of training. ([Click here for training poster](#))

So leaders, instead of the sit at the table and write format with the never ending power point and lecture, the National Royal Rangers Training department has developed the best training format to date back to hands-on interaction with lots of activities and class participation! Yes, you will get the much needed information to become a Ready, Safe, Trained and Advanced leader, but also be eligible to earn the new Leaders Medal of Excellence. This updated format creates an exciting fun experience for leaders young and old!

What about the leader who has already earned his Leaders Medal of Achievement and has been to the Leaders Training Academy, National Training Camp and has already attended the World Class Outpost training as well? For the leader that has completed these required leadership training events, there is a transitional course and this will allow this leader to receive the Advanced leader training patch for his hard work. The national royal rangers website has the application forms for each level of the new leadership training including the requirements for completing each level ([click here](#)). The exciting thing about this training is that leaders are seeing their boys led to Christ on a weekly basis! Praise the Lord! If you have any questions or would like more information about the requirements or when and where training will be held, please contact me at (218) 935-2299 or (701) 412-8225.

Sincerely, Kevin Penner - MNRR Training Coordinator
